

／Kairax 50H／

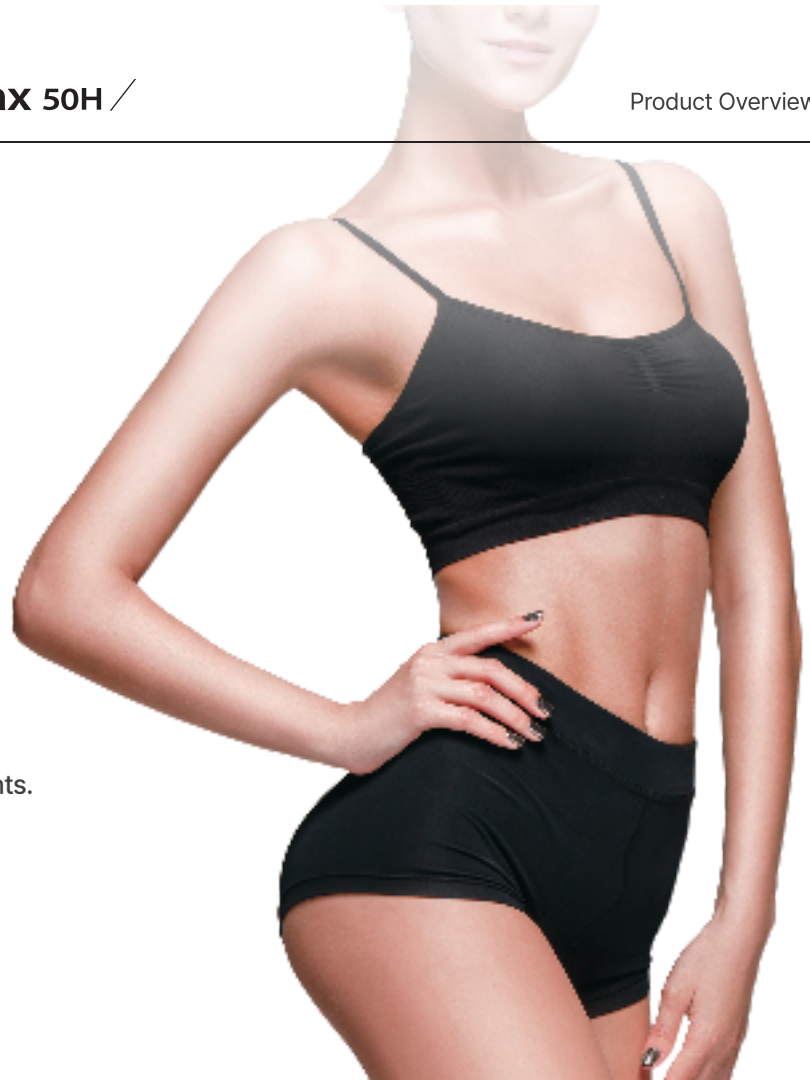

Advanced Hyaluronic Acid Technology
for Safe & Long-Lasting Body Contouring

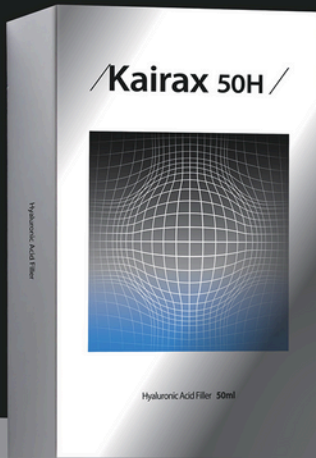

Product Overview

Kairax 50H is a cutting-edge body contouring solution, formulated with **medical-grade hyaluronic acid (HA)**. It offers a safe, effective treatment that provides **long-lasting volume** and **natural body contours**.

The filler uses a low **BDDE concentration** (<0.2ppm), minimizing side effects and ensuring a smooth experience for patients. Kairax 50H delivers reliable, consistent results.

Key Features

Safety

Medical-grade HA : Guarantees the highest standards of safety.

Minimal Cross-Linker Usage :

Low BDDE concentration (<0.2ppm) ensures patient comfort and reduces potential complications.

No side effects : due to non-animal origin and low BDDE residue.

Long-Lasting Results

Stable Structure :

A unique stabilization technique preserves the natural HA network, ensuring the filler maintains its shape over time.

Slow Decomposition :

The filler decomposes at a controlled rate, ensuring sustained results and natural volume restoration.

Ease of Use & Versatility

One Large Syringe (50mL)

The **50mL syringe** allows for convenient and **precise application**, making large-volume body contouring easier for doctors.

Versatility

Kairax 50H is suitable for use on various body areas, such as the **breasts**, **hips**, and **abdomen**, delivering consistent, **natural-looking volume restoration** wherever needed.

Ideal for doctors and patients

Precise and Controlled Application

The **50mL syringe** enables **accurate** and **efficient** large-volume injections, reducing the need for multiple syringes during treatment.

Patient Safety

Using **medical-grade HA** and maintaining **minimal risk of side effects**, **Kairax 50H** ensures a **comfortable** and **safe procedure** for patients.

Recommended For

Kairax 50H is perfect for patients seeking non-invasive **body enhancement** with minimal downtime.

Body Contouring

Ideal for patients with **flat or under-contoured areas** such as **breasts, hips, and abdomen**.

Skin Elasticity Restoring

Effective for who have lost **skin elasticity** due to diet and aging.

Body Volume Correction

For **quick body volume enhancement** or **versatile use across body areas**.

Technology behind Kairax 50H

Kairax 50H utilizes an **innovative and patented stabilization method** which preserves the **natural cross-linked and entangled HA network** with **minimal synthetic cross-links** and **minimal modification**.

This filler is designed to **retain its viscoelasticity over time**, maintaining its **original properties effectively**.

Benefits of Hyaluronic Acid in Body Contouring

Hyaluronic Acid (HA)

A naturally occurring substance in the body, HA is essential for **moisture retention** and **skin hydration**.

It binds water molecules, boosting skin elasticity and volume, contributing to youthful body contours.

Product Specifications

- **Product Name** : Kairax 50H
- **Package Unit** : 1 box × 1 syringe (50mL)
- **HA Concentration** : 20mg/mL
- **Gel Type** : Mono-phasic
- **Storage** : Room temperature (2°C~25°C), protect from light, do not freeze.
- **Composition** :
Cross-linked sodium hyaluronate : 20mg/mL
Phosphate-buffered saline : q.s.
