

# iLLUMA

## Hydro Booster

A uniquely formulated blend that enhances skin tone, boosting radiance and providing deep hydration.

## iLLUMA HYDRO BOOSTER

is an advanced skin booster solution designed to hydrate and enhance skin tone. Packed with Sodium Hyaluronate and Tranexamic Acid, this powerful combination delivers multiple benefits to achieve radiant and youthful skin.

### What's inside iLLUMA HYDRO BOOSTER?

#### **Sodium Hyaluronate(24 mg/ml):**

The superstar ingredient for deep skin hydration.

#### **Tranexamic Acid(5 mg/ml):**

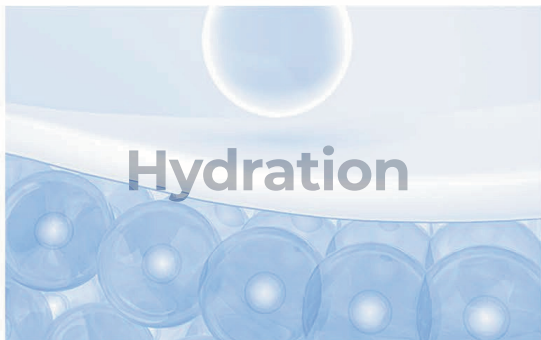

A powerful brightening agent that helps reduce pigmentation and even out skin tone.

## Key Benefits of iLLUMA HYDRO BOOSTER

Sodium Hyaluronate deeply moisturizes skin for plumpness and elasticity.

Tranexamic Acid helps reduce pigmentation, leaving skin even and glowing.

The image shows a white, rectangular packet of 'iLLUMA Hydro Booster' skin care product. The packet is tilted diagonally from the bottom left towards the top right. It features the brand name 'iLLUMA' in a large, bold, sans-serif font, with 'Hydro Booster' written below it in a smaller, similar font. A dashed line with a semi-circular cutout is visible on the packet, suggesting it is a sachet. The background is a vibrant blue with various abstract, organic shapes in lighter and darker shades of blue, creating a modern and clean aesthetic.

## iLLUMA Hydro Booster

### What Makes iLLUMA HYDRO BOOSTER Stand Out?

#### **High concentration of Sodium Hyaluronate(24 mg/ml):**

works wonders for deep hydration.

It helps retain moisture within the skin, giving it a fuller, more youthful look by reducing dryness and fine lines.

#### **Tranexamic Acid(5 mg/ml):**

Known for its ability to combat pigmentation, this ingredient brightens the skin by reducing dark spots, hyperpigmentation, and uneven skin tone.

#### **Suitable for Sensitive Skin:**

Both ingredients are generally well-tolerated, allowing the active ingredients to work immediately, and can be used together without causing dryness or irritation

## Treatment Method

**ILLUMA HYDRO BOOSTER** is available in a convenient package of 3 syringes, each containing 2ml of product.

### Indications

- ✓ Designed for skin hydration, elasticity improvement, and brightening
- ✓ Suitable for dull, dehydrated, and uneven skin tone.

### Application Method

#### 1. Preparation:

- ✓ Cleanse the treatment area thoroughly.
- ✓ Apply a numbing cream if needed (optional).

#### 2. Injection Technique:

- ✓ Recommended methods: Micro Injections, Nappage, Bap or Cannula Technique.
- ✓ Total recommended dose per session: 2-3ml per treatment

#### 3. Post-Treatment Care:

- ✓ Avoid excessive sun exposure, saunas, and intense exercise for 24-48 hours.
- ✓ Use a gentle moisturizer and sunscreen daily.

### Treatment Protocol

**Initial phase:** 3-4 sessions at 2-4 week intervals.

**Maintenance:** 1 session every 3-6 months.
